🌐 Portfolio

Education

Technical University of Dresden (TU Dresden)

Master's in Computer Science

2026 – Present

Dresden, Germany

Shree L.R. Tiwari College of Engineering

Bachelor of Engineering in Computer Engineering

Oct 2021 – Jun 2025

Mumbai, India

Experience

Jobclassify (HR-Tech Startup) | Data Analyst

Aug 2024 – Feb 2025

- Developed ML pipelines that improved candidate-job matching accuracy by **30%**.
- Automated candidate screening workflows, saving **50+ hours/month**.
- Built interactive dashboards using Power BI and Excel, reducing reporting time by **40%**.
- Collaborated with HR and recruitment teams to optimize data-driven hiring strategies.

Research Paper

Foresight Realty: A Comprehensive AI-Powered Framework for Real-Estate Investment Analysis

Apr 2025

International Journal of Electrical, Electronics and Computer System

- Conducted research on integrating Artificial Intelligence into real estate investment for predictive decision-making.
- Applied machine learning and predictive analytics techniques to forecast market trends and identify investment opportunities.
- Demonstrated how AI-driven systems improve risk management and investment profitability.

Projects

Image Denoising & Segmentation for Chemical-Peeled Images | Python, PyTorch, U-Net, OpenCV

feb 2026

- Developed an end-to-end pipeline for denoising and segmenting microscopy and chemical-peeled images.
- Implemented Noise2Noise, DnCNN, and U-Net architectures for image restoration and segmentation tasks.
- Evaluated model performance using PSNR, SSIM, and IoU metrics with a Streamlit demo and Flask API integration.

Deep Fake Detection System | Python, OpenCV, TensorFlow/PyTorch, Streamlit, Flask

Oct 2025

- Engineered an AI-powered deepfake detection pipeline for image, video, and real-time stream analysis.
- Integrated MTCNN-based facial extraction and computer vision techniques for manipulation analysis.
- Developed a real-time inference dashboard using Streamlit and deployed REST APIs with Flask.

Movie Revenue Prediction | Python, XGBoost, Random Forest, Streamlit

Aug 2025

- Performed preprocessing, exploratory data analysis, and feature engineering on entertainment datasets.
- Optimized regression models including Linear Regression, Random Forest, and XGBoost for revenue prediction.

Foresight Realty: AI-Based Real Estate Price Prediction | Python, Flask, Machine Learning

Jul 2024 – Apr 2025

- Built and deployed a Flask-based prediction platform for real-time property price estimation.
- Contributed to research publication on AI-powered investment analytics in real estate.

Technical Skills

Programming Languages: Python, SQL

Machine Learning & AI: Scikit-learn, TensorFlow, PyTorch, Keras, NLP, Deep Learning, Computer Vision

Frameworks & Tools: Flask, Streamlit, OpenCV, Git, GitHub, Jupyter Notebook, VS Code

Data Science: Pandas, NumPy, Matplotlib, Feature Engineering, Predictive Analytics

Concepts: Machine Learning Pipelines, Model Deployment, REST APIs, Data Visualization

Languages

English

Professional Proficiency

German

A2.1 Level
